A GUIDE TO ATLAS STYLES & SUNDRIES

Bespoke Banquette Seating for Your Next Project Begins Here - Key Reads, Section 1

Using Our Styles & Sundries Catalogue

Frame Constructions - We offer a range of frame constructions to suit every client. Our *Standard Sprung Seating Construction* is our most popular, and comes with a 10 year frame guarantee as standard.

Seating Styles - For design inspiration, our portfolio of seating styles showcases how clients have developed a style into something entirely bespoke. All dimensions provided are recommendations only, and are completely customisable.

Variations & Additions - From embroidery through to custom LED lighting and discrete storage solutions, these options aim to fulfil all practical and aesthetic requirements.

Sundries - Looking to customise your seating further? We offer an array of legs, buttons and nails to make your seating a design icon.

Warranties

Warranties for sundries are given on a product specific basis. For further details and product enquiries, and for warranty information on banquette seating - do not hesitate to contact us.

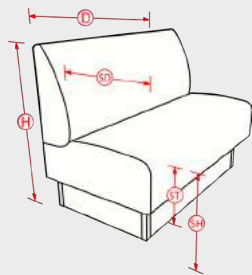

Experience

With decades of experience in the contract furniture industry, Atlas has a large portfolio of exceptional work and satisfied clients. Please contact a member of a friendly team to discuss your next project.

FRAME CONSTRUCTIONS

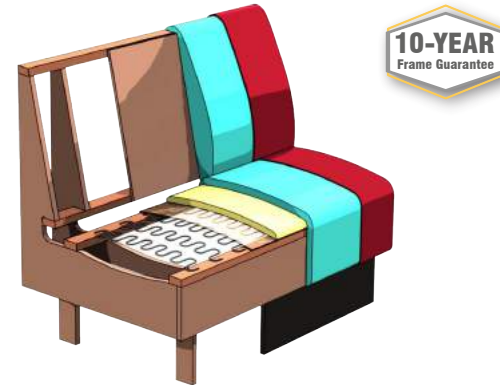

Quality Construction Methods Developed from Years of Experience - Key Reads, Section 2

About Atlas Frame Constructions

We offer a range of frame constructions to suit the requirements of any project. Our Standard Sprung Seating frame delivers uncompromising comfort through expertly crafted ergonomic design, and comes with a 10 year frame guarantee as standard.

This frame has been tested *BS EN 16139: 2013 - Test Level 2*, and uses serpentine type springs; robust, reliable, and built to last.

Atlas Standard Sprung Construction

We Also Offer, Where Required

Our alternative frame constructions range from *Platform Base* through to the more luxurious *Helical Sprung* systems.

Contact Us

Please enquire for further details on which system is best fit for your next project.

Atlas Platform Base Construction

This frame construction utilises a rigid base in place of any springs or webbing. The platform base is covered in foam to suit, and then upholstered. Platform base units can often run at a more economical price, though some comfort will be compromised.

Atlas Helical Sprung Construction

Our more luxurious 'Helical Sprung' construction with the addition of a sprung back to provide extra comfort. The helical springs in the base offer a natural fit that contours and supports the body.

Atlas Pocket Sprung Construction

Our latest design, 'Pocket Sprung' construction. The base is assembled using a pocketed spring construction — similar to those found inside some mattresses. This further improves comfort, whilst offering good ergonomic support.

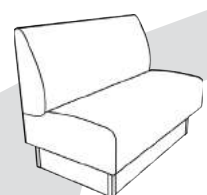

Atlas Webbed Cushion Construction

These units are typically composed of our rigid frames, with a strong elasticated webbing that forms a lattice-like weave where the springs would usually sit.

Foam, feather-filled or pocket sprung cushions are then placed on top of the webbing for the user to sit on.

ATLAS CONTRACT
FURNITURE

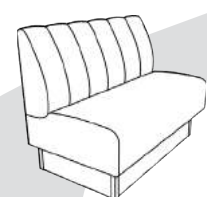

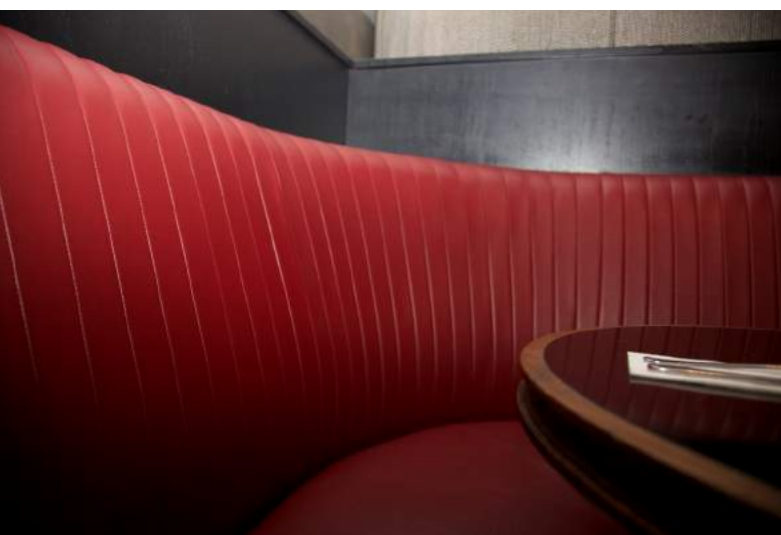

PLAIN BACK seating style

Atlas Contract Furniture - Seating Styles and Sundries Catalogue

About

Our classic Plain back seating style offers a clean and elegant look. A great way to showcase single fabrics, or alternatively - why not mix seat and back upholstery for a stylish contrast. One of our most popular styles due to it's versatility and suitability for any project.

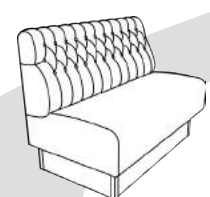

FLUTED BACK seating style

Atlas Contract Furniture - Seating Styles and Sundries Catalogue

About

Our Fluted back seating is available with any width of flute (Standard flutes are nominally 150 mm wide). Aligned with precision and entirely customisable; flutes elegantly compliment plain fabrics for an added design flair.

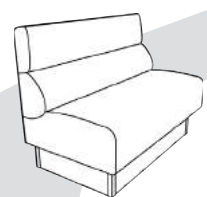

DEEP BUTTON BACK seating style

Atlas Contract Furniture - Seating Styles and Sundries Catalogue

About

Our Deep Button back seating is traditional, classic and timeless. For a sophisticated and quality look, leathers go hand-in-hand with this seating style. The option to choose which buttons accent your piece can really transform this design statement into something entirely unique with lots of character.

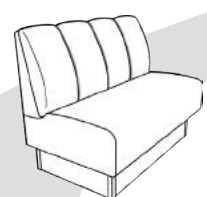

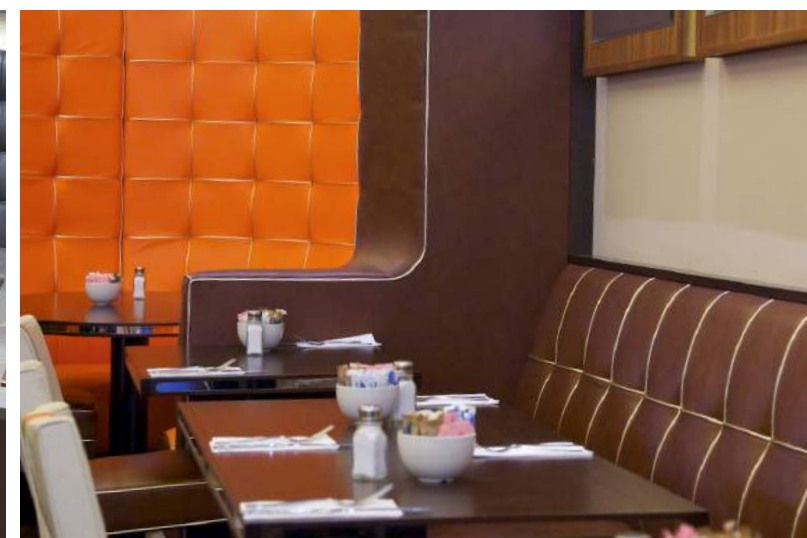

TWO HORIZONTAL PANEL seating style

Atlas Contract Furniture - Seating Styles and Sundries Catalogue

About

Our Two Horizontal Panel back seating features two individually upholstered, fully customisable panels. Panel sizes can be adjusted to suit your specification, and different fabrics can also be chosen to create a striking contrast.
